

**Grow with us and
shape the future
for a cleaner world**

We are BÜFA!

BÜFA is an international, family-owned company with more than 140 years of experience in the chemical industry. With passion, we drive innovation and sustainability by developing tailor-made solutions for various sectors. We foster partnerships to work together on creating New Chemistry for a better future.

Cleaning

BÜFA Cleaning specializes in advanced cleaning and detergent solutions, designed to meet a wide range of needs in industrial applications. Our expertise extends to innovative water treatment technologies, ensuring optimal performance and efficiency in all cleaning processes.

Chemicals

BÜFA Chemicals offers comprehensive, tailor-made solutions that go beyond simple chemical trading. Our expertise in packaging, storage and distribution makes us a reliable partner offering solutions from water treatment to swimming pool technology and wellness products.

Your Expertise, Our Vision: Tackling Water Treatment Challenges

We are looking for partners who are eager to shape the future of water treatment with us! Whether you are an innovative start-up or an established SME, we are seeking companies that develop solutions for challenges in the field of industrial water.

We are particularly interested in improving process control, wastewater treatment, innovative methods for monitoring water quality, and circular water usage systems.

Your Benefits as Our Partner

You will be part of a strong international network with access to extensive resources. We assist you in scaling up your ideas and providing support through venture clienting and venture capital. Furthermore we support you in bringing your innovative solutions into the market.
